

Our tradition continues...

On behalf of the Programme Committee it is my pleasure to invite you all to the XXIV European Stroke Conference (ESC) in Vienna 2015.

We invite all of you to submit abstracts for oral and poster sessions **until 11 January 2015** via www.eurostroke.eu. Late abstracts can be submitted as "Late breaking news" until 23 April 2015. Abstracts will be published in a special issue of "Cerebrovascular Diseases" (impact factor 4).

We will continue to organise e-poster sessions using terminals with a huge screen, which allow all the participants of the ESC to interact with the contributor's poster, watch videos and search for items listed in our network. We will furthermore establish **e-poster workshops**, where the best posters can be presented to and discussed with a small auditory during a special session slot.

We will again apply for **18 ECMEC** at UEMS-EACCME, which can be converted to AMA credits and are deemed to be adequate for The Royal College of Physicians and Surgeons of Canada.

The **European Stroke Research Foundation** (ESRF) will support the ESC and grant 20 Young Investigator Awards for Excellent Research.

Join us at the 24th EUROSTROKE conference 2015 and enjoy Vienna in the merry month of May!

The Wiener Festwochen (Vienna Festival) is a cultural festival in Vienna that takes place every year for five or six weeks in May and June – starting in 2015 on 14 May with a public opening. The Wiener Festwochen was established in 1951, when Vienna was still occupied by the four Allies. It is now one of the world's leading cultural festivals and it is one of the major highpoints of Vienna's annual cultural programme (available from 17 December 2014 online).
